

## **High School Curriculum LIFE classes '09-'10**

### ***Abiding in Jesus – 28 weeks***

Based on John 15 Students will study the practical meaning of Abiding in the Vine. Topics will include living in daily dependence on Jesus, obedience, bearing fruit, praying without ceasing, being satisfied in Jesus, trusting God's heart for you, trusting God's word and committing all things to Jesus and trusting Jesus in sorrow, failure and discipline.

### ***Knowing the God Who Is – 13 weeks***

Not surprisingly, Christian teens ponder whether God actually exists and how they can be sure he is there. They wonder about the differences between Christians and non-Christians. They ask themselves what kind of a God permits good people to suffer. They question the benefits of obeying God. This quarter will permit all these issues to be raised and discussed.

### ***Firm Foundations – Ten commandments***

Knowing the commandments, understanding their meaning and purpose, and assessing your life against the high standard of God's law will make you a strong and faithful Christian. Although believers do not have the strength themselves to keep these laws, the Holy Spirit helps them to obey God's moral law.
